## FOR IMMEDIATE RELEASE

### Interim Budget: Government's vision towards a Developed & Sustainable India

**1<sup>st</sup> February'19, New Delhi:** The recently concluded Interim Budget is a clear demonstration of the government's vision towards a developed & sustainable India. The recommendations are highly encouraging specially for the middle class and rural India.

Even though, there were no direct benefits to the Auto Sector, with the new tax rebate for individuals of income up to Rs. 5 Lakhs & assured income for farmers, there will be an anticipated surge in the positive customer sentiments with more liquidity coming into the system. This will surely push up the demand for 2W, Light CV and Tractors.

Government's focus on rural roads with an allocation of Rs. 19,000 crores under Pradhan Mantri Gram Sadak Yojna will definitely have a rub off effect on sales uptick for Construction Equipment Vehicles and Commercial Tractors Segments.

The government's vision 2030 is a clear road map for building India as a stronger nation. As part of Automobile industry, we are in sync with government's vision for reduction of Crude Import and making India self-dependent on Energy Consumption. F A D A welcomes the focus put on use of Bio-fuels, Hybrids and Electric Vehicles.
